LDN GLOBAL MARKETS

(FSA Regulated), a world leader in financial services and multi awarded broker is the financial broker arm of the LDN Group that is specialized in financial services with the Fintech being the main component of the Group's DNA.

Behind the regulated forex broker, there is the backbone which is the financial technology sister company LDN Fintech (www.ldnfintech.com)
, specialized in all trading, risk management, AI, machine learning, custom software and algos development for professional institutions such as Banks, Hedge Funds, Forex brokers and professional traders.

With the abundance of Forex brokers in the market, traders are spoilt for choice to decide on the best cost of trade and best returns on their investment, this is where LDN Global Markets strives to stand out by going the distance to offer our clients direct

access to inter-bank deep pools of FIRM liquidity, tight spreads, fast and quality execution, and exceptional customer service. With our matching engines and data centers globally (LD4, Ty3, NY3, SG1) we can guarantee the lowest spreads and unmatched executions with low latency (9 to 12 milliseconds for the cross-connection).

FOLLOWING WHAT WE DISCUSSED, I DID JOT DOWN FEW POINTS ABOUT OUR SERVICES FOR PROFESSIONALS AND ACTIVE TRADERS, NEW TRADERS AND MONEY MANAGERS ARE BASED ON THE FOLLOWING MAIN PRINCIPLES:

LOWEST SPREADS

Our trading model provides clients with transparent execution and very competitive multi-bank bid/offer spreads where you can get spreads as low as 0.1. We are constantly investing in technology and building strong relationships with the most reliable banks and liquidity providers to present our wide clients base with the best possible trading conditions in today's financial services and trading markets all by leveraging the good relationship we built over the years with our Prime Liquidity providers.

FAST EXECUTION, NO RE-QUOTES

Orders are executed instantly without being passed through any third party or dealing desk. This execution type guarantees all trades will never experience delays, partial-fills, re-quotes or any kind of manipulation. Dedicated connection to our liquidity providers ensures the lowest latency and fastest possible trade execution for our clients.

Our trading model eliminates conflicts of interest inherent in some other dealing desk platforms. We do not take positions against our clients; we fill client's orders from the best bid/offer prices available to us from our liquidity providers with 100% access to real market conditions.

NO TRADING RESTRICTIONS

LDN Global Markets trading environment has been created with traders in mind as no forex trading strategies are restricted. Our leading trading conditions allow our clients to maximize markets by allowing Hedging, Scalping and use of automated trading EA's.

SWAP FREE ACCOUNTS (ISLAMIC)

LDN Global Markets offers its clients interest free accounts according to their religious beliefs or for clients who use trading systems that do not take into account the impact of Swaps. These Swap Free/Roll Over fee free accounts are termed as 'Islamic Accounts' and when trading on the swap-free account with any currency pair, a trader does not gain or lose any amount regardless of the position volume. Even keeping the trade open for a long time (T&C apply), a trader can be sure that only the exchange rate will affect the trade outcome.

MINIMUM DEPOSIT

At LDN Global Markets we understand that not all new traders are ready to take huge risk with their investment, and hence we offer our clients to start trading with as little as $100 by utilizing our bronze account upon request. In fact, this facility is even used by many of our prospective clients to check our trading conditions before investing bigger sum.

Low Risk

EDUCATION

Free personalized Training from awarded and highly recognized Trading Professors and mentors At LDN Global Markets we understand that every trader is unique and as per this philosophy, we tend to offer various kinds of training solutions as per client's needs.

We provide special one-to-one training, seminars, and regular webinars for a large number of clients so as to make our clients better understands the markets fully and to maximize their profits on their investment.

CONFIDENTIALITY

LDN Global Markets maintains appropriate controls and monitors the transfer of confidential and sensitive client information within and outside the Company on a need-to-know basis. LDN Global Markets does not deliberately disclose client information unless this is upon request of the client, or as required to do so by law.

BEST CUSTOMER SERVICE

LDN Global Markets strives to offer you the best possible customer service and support. Our multi-lingual team of professionals has a significant amount of experience within the forex industry, so they understand what traders want and need. You can trade with confidence knowing that the LDN Global Markets team will always be there to help you.

Professionalism, experience and practical knowl-edge in financial and currency markets are what makes our employees the best guarantee of exceptionally sound professional decisions, which in term can help to maximize our clients trading experience with us.

LDN Global Markets value its trusted partners as much as we value our clients, which is why we are happy to offer a very solid and profitable partnership program, the existing packages are a rebate of $3, $8 or $15 per traded lot from your referred clients. Also, worth mentioning that we can twist the rebate plan if the partner has a special request and we see there is a growing potential in the business case and the clients base (deposits, volume, assets traded).

Will be great to schedule a call and discuss further your requested rebate plan and estimated number of clients, deposits, and volume.

Last, we would kind you ask you to visit our social media pages below and we look forward to receiving your feedback and requests.
